I have written to the Minister for Health and Aged Care, Mark Butler, his Departmental Secretary, Brendan Murphy, and other Members and Senators of our Australian Parliament, requesting a Parliamentary inquiry into what I described as **“the biggest medical scandal in Australia's history”**. Through the dozen or so years I've developed the Strathburn Station SFM project, I've separately taken the time to investigate and document unambiguous evidence of an Epic Diabetes Fraud by a cabal of four highly influential University of Sydney professors of science - **Jennie Brand-Miller, Stephen Colagiuri, Stephen Simpson and Stewart Truswell – and diabetes drug-seller Novo Nordisk**. This menace to public health – dishonestly protected today by University of Sydney Vice-Chancellor Mark Scott - features stunning and unforgivable scientific and medical misconduct that continues to fuel type 2 diabetes (T2D), cardiovascular disease (CVD), years and decades of unnecessary family stresses and misery, and then early death for millions of hapless Australians, especially Indigenous Australians. Today's readily reversible T2D epidemic – **driven by ongoing excess consumption of sugar and grain-based products** - is driving our growing crisis in General Practice and Medicare: <https://www.australianparadox.com/pdf/Letter-Health-Minister-n-Secretary-Feb23.pdf>
